Red Rock Technical College - Admissions System Documentation

Created By: Cash Gines

Last Updated: 10/20/2026

Access	Module	Component	Type	Purpose	Additional Notes
Front Desk and Admissions Advisor	Inquiries.RR	Inquiries.RR	Module	Holds people who have shown interest in a program but have not applied yet (prospective students).	Records are retained for data collection purposes.
	Inquiries.RR	Inquiry ID	Field (Auto-Number)	Unique ID given to each inquiry (INQ-00001).	Copied to the Application when the inquiry converts.
	Inquiries.RR	First Name	Field (Single Line)	Prospective student's first name.	
	Inquiries.RR	Last Name	Field (Single Line)	Prospective student's last name.	
	Inquiries.RR	Email	Field (Email)	Prospective student's email address.	
	Inquiries.RR	Phone	Field (Phone)	Prospective student's phone number.	
	Inquiries.RR	Program of Interest	Field (Lookup to Programs.RR)	The program the person is interested in.	
	Inquiries.RR	CohortID	Field (Lookup to Cohorts.RR)	The cohort (scheduled class start) the person is interested in.	
	Inquiries.RR	Cohort Start Date	Field (Date)	Start date of the selected cohort.	
	Inquiries.RR	Stage	Field (Pick List)	Stage selection for where the student is in the Inquiry process.	Two fields to pick from. Changing this to Applicant creates an Applicant record.
	Inquiries.RR	How did you hear about us?	Field (Pick List)	Marketing drop down list.	
	Inquiries.RR	Convert Inquiry to Application	Workflow Rule	Workflow Rule that creates an applicant record.	Changing the Stage field to Applicant. Records are retained for data collection purposes.
Admissions and Support	Applications.RR	Applications.RR	Module	Applicant Module that holds records created from Inquiries who have moved to the Applicant Stage.	
	Applications.RR	Applicant ID	Field (Auto-Number)	Auto-Number for Applicant ID (APP-00001).	
	Applications.RR	Inquiry ID	Field (Lookup to Inquiries.RR)	Reference data that is carry over from Inquiry ID.	
	Applications.RR	Program	Field (Lookup to Programs.RR)	Program the applicant is interested in.	
	Applications.RR	Cohort ID	Field (Lookup to Cohorts.RR)		
	Applications.RR	Course Name	Field (Single Line)		
	Applications.RR	Cohort Start Date	Field (Date)		
	Applications.RR	Days of the Week	Field (Multi-Line)	Mon-Sat are available.	
	Applications.RR	Hours per Day	Field (Decimal)		
	Applications.RR	Total Tuition and Fees	Field (Currency)	Formula using Tuition + Fees.	
	Applications.RR	Tuition and Fees Paid	Field (Checkbox)	Shown on the Enrolled record through the Application lookup.	
	Applications.RR	First Name	Field (Single Line)		
	Applications.RR	Last Name	Field (Single Line)		
	Applications.RR	Phone	Field (Phone)		
	Applications.RR	Email	Field (Email, unique)	The Applicant Email form uses this field to find which application to update.	
Admissions	Applications.RR	Date of Birth	Field (Date)	Sensitive Data. Only viewable by the Admissions Advisor.	
	Applications.RR	Sex	Field (Pick List)	Sensitive Data. Only viewable by the Admissions Advisor.	
	Applications.RR	SSN	Field (Number)	Sensitive Data. Only viewable by the Admissions Advisor.	
Admissions and Support	Applications.RR	Testing Complete	Field (Checkbox)	Support Coordinator should see this as read-only. Shown on the Enrolled record through the Application lookup.	
	Applications.RR	Additional Document	Field (File Upload)		
Support	Applications.RR	Emailed Approval Letter	Field (Checkbox)	Checking it runs the Email Acceptance Letter workflow, which emails the letter to the applicant.	
	Applications.RR	Waitlisted Date	Field (Date)	Required by the Waitlisted Requirements Blueprint transition.	
Admissions and Support	Applications.RR	Stage	Field (Pick List)	Changing the Stage to Enrolled creates a new student in the Enrolled.RR table.	Changing the Stage field to Enrolled. Records are retained for data collection purposes.
Admissions	Applications.RR	Testing Center	Section		
	Applications.RR	SAT/ACT Testout	Field (Checkbox)		
	Applications.RR	Testout Validation Upload	Field (File Upload)		
	Applications.RR	Attempts	Field (Rollup Summary)	Calculated automatically from related records in the TestingCenter.RR.	
	Applications.RR	Last Attempt Date	Field (Rollup Summary)	Calculated automatically from related records in the TestingCenter.RR.	
	Applications.RR	Accuplacer Math	Field (Rollup Summary)	Calculated automatically from related records using Maximum in the TestingCenter.RR.	
	Applications.RR	Accuplacer Reading	Field (Rollup Summary)	Calculated automatically from related records using Maximum in the TestingCenter.RR.	
	Applications.RR	Accuplacer Writing	Field (Rollup Summary)	Calculated automatically from related records using Maximum in the TestingCenter.RR.	
	Applications.RR	Accuplacer Essay	Field (Rollup Summary)	Calculated automatically from related records using Maximum in the TestingCenter.RR.	
Admissions and Support	Applications.RR	Terminated Application	Section		
	Applications.RR	Inactive Application	Field (Checkbox)		
	Applications.RR	Denied Application	Field (Checkbox)		
	Applications.RR	Date of Terminated Application	Field (Date)		
	Applications.RR	Application Terminated Notes	Field (Multi-Line)		
	Applications.RR	Applications Kanban	Kanban View	Controlled by Stage in Application Pipeline Blueprint	
	Applications.RR	Application Pipeline	Blueprint	Pipeline using requirements for Stage changes. View requirements below.	
	Applications.RR	Admissions Req Met	Blueprint Transition	Staff must fill in: First Name, Last Name, Email, Date of Birth, Sex, SSN, Cohort Start Date, Course Name, Testing Complete, and Tuition and Fees Paid. Completing it changes Stage to Reviewing Applicant	
	Applications.RR	Emailed Requirements	Blueprint Transition	Staff must check Emailed Approval Letter and complete a required checklist item: Confirm the acceptance letter was sent. Checking Emailed Approval Letter runs the Email Acceptance Letter workflow, which sends the letter automatically.	

Support	Applications.RR	Enrollment Requirements	Blueprint Transition	Staff must complete the Completed Review checklist: Seat Capacity? (Must do a manual process of looking at the Report or Analytics for "Course Seat Capacity") and must recieve an email from Student that they have confirmed a seat? Completing it changes Stage to Enrolled, which runs the Convert Application to Enrolled workflow and creates the student's Enrolled.RR record.	
	Applications.RR	Denied Requirements	Blueprint Transition	Staff must fill in Application Terminated Notes, Date of Terminated Application, and check Denied Application.	
	Applications.RR	Inactive Requirements	Blueprint Transition	Staff must check Inactive Application and fill in Date of Terminated Application and Application Terminated Notes.	
	Applications.RR	Waitlisted Requirements	Blueprint Transition	Staff must fill in Waitlisted Date.	
	Applications.RR	Convert Application to Enrolled	Workflow Rule	Trigger: Stage is modified to Enrolled. Applies to all applications. Instant action: Create Record in Enrolled.RR, which copies the student's details and links back to this application. The new Enrolled record then runs the Build Student Progress workflow.	
	Applications.RR	Send Applicant Email	Workflow Rule	Trigger: an application is created, including applications created by the Convert Inquiry to Application workflow. Applies to all applications. Instant action: the Send Applicant Email to collect Data email notification.	
Admissions	Applications.RR	Send Applicant Email to collect Data	Email Notification (Workflow Action)	Used by the Send Applicant Email rule. Record who receives it if it is not only the applicant.	
	Applications.RR	Notification - Handoff from Admissions to Support Coordinator	Workflow Rule	Trigger: Stage is modified to Reviewing Applicant. Applies to all applications. Instant action: the Applicant Ready for Review email notification.	
	Applications.RR	Applicant Ready for Review	Email Notification (Workflow Action)	Used as a Handoff notification rule from Admissions Advisor to Support Coordinator.	
Support	Applications.RR	Email Acceptance Letter	Workflow Rule	Trigger: Emailed Approval Letter is changed to checked. Applies to all applications. Instant action: the Email Acceptance Letter email notification.	
	Applications.RR	Applicant.RR - Form Template	Email Template	Used by the Send Applicant Email workflow. Used to collect Sensitive information.	
	Applications.RR	Applicant Ready for Review.RR	Email Template	Used by the Handoff from Admissions to Support Coordinator workflow.	
	Applications.RR	Acceptance Letter.RR	Email Template	Used by the Email Acceptance Letter workflow.	
Email Template	Zoho Forms: Applicant Email	Applicant Email	Zoho Form	Opened from the link in the Applicant.RR - Form Template email.	
	Zoho Forms: Applicant Email	Email (hidden)	Form Field (Hidden, prefill alias: Email)	Hidden. This is the unique identifier taht works as a conenctor between the Zoho Form and the CRM.	
	Zoho Forms: Applicant Email	Date of Birth / Sex / SSN / Additional Document	Form Fields	Sesitive Information. Mapped to the matching Applications.RR fields in the CRM integration.	
	Zoho Forms: Applicant Email	Zoho CRM integration	Integration	If the match is changed or removed, every submission will create a new Application.	
Support	Enrolled.RR	Enrolled.RR	Module		
	Enrolled.RR	Student Information	Section		
	Enrolled.RR	Student ID	Field (Auto-Number)		
	Enrolled.RR	First Name	Field (Single Line)		
	Enrolled.RR	Last Name	Field (Single Line)		
	Enrolled.RR	Email	Field (Email)		
	Enrolled.RR	Phone	Field (Phone)		
	Enrolled.RR	Enrollment Details	Section		
	Enrolled.RR	Inquiry ID	Field (Single Line)		
	Enrolled.RR	Application ID	Field (Lookup to Applications.RR)		
	Enrolled.RR	Program	Field (Lookup to Programs.RR)		
	Enrolled.RR	Course	Field (Lookup to Courses.RR)		
	Enrolled.RR	Course Session	Field (Lookup to Cohorts.RR)	Course Order, Fees, Tuition, Days of the Week, and Hours per Day are shown on this record from the linked cohort.	
	Enrolled.RR	Course Start Date	Field (Date)		
	Enrolled.RR	Course End Date	Field (Lookup)		
	Enrolled.RR	Days of the Week	Field (Multi-Select)		
	Enrolled.RR	Hours per Day	Field (Number)		
	Enrolled.RR	Stage	Field (Pick List)		
	Enrolled.RR	Student Progress	Subform	Rows are added automatically by the Build Student Progress function. (This is a deluge function thats building this).	
	Enrolled.RR	Course (Student Progress)	Subform Field (Lookup to Courses.RR)		
	Enrolled.RR	Course Order (Student Progress)	Subform Field (Number)	Filled in by the deluge function from Courses.RR.	
	Enrolled.RR	Hours Required (Student Progress)	Subform Field (Decimal)	Filled in by the deluge function from the course's Course Hours.	
	Enrolled.RR	Hours Completed (Student Progress)	Subform Field (Decimal)	Entered by staff.	
	Enrolled.RR	Course Complete (Student Progress)	Subform Field (Checkbox)	Entered by staff.	
	Enrolled.RR	Total Hours Completed	Aggregate Field (Formula, Sum)	Updates when the record is saved.	
	Enrolled.RR	Total Hours Required	Aggregate Field (Formula, Sum)	Updates when the record is saved.	
	Enrolled.RR	Student Academic Progress	Section	Entered by staff.	
	Enrolled.RR	Student Notes	Field (Multi-Line)	Entered by staff.	
	Enrolled.RR	Completion	Field (Percent)	Entered manually and tracked by the Support Coordinator.	
	Enrolled.RR	Attendance	Field (Percent)	Entered manually and tracked by the Support Coordinator.	
	Enrolled.RR	Build Student Progress	Workflow Rule	Trigger: Create or Edit, repeats on every edit. Tied to Deluge function to build Student Progress in the Enrolled record.	
	Programs.RR	Programs.RR	Module		
	Programs.RR	Program.RR Name	Field (Single Line)		
	Programs.RR	Program Description	Field (Multi-Line)		
	Programs.RR	Program Hours	Field (Decimal)		
	Courses.RR	Courses.RR	Module		
	Courses.RR	Course.RR Name	Field (Single Line)		
	Courses.RR	Program	Field (Lookup to Programs.RR)		
	Courses.RR	Course Hours	Field (Decimal)		
	Courses.RR	Course Order	Field (Number)		
	Courses.RR	Course Description	Field (Multi-Line)		
	Cohorts.RR	Cohorts.RR	Module	Also could be called Course, I wish I had actually called this courses instead before building.	
	Cohorts.RR	Cohort ID	Field (Auto-Number)		
	Cohorts.RR	Program Name	Field (Lookup to Programs.RR)		

Registrar	Cohorts.RR	Course Name	Field (Lookup to Courses.RR)		
	Cohorts.RR	Course Hours	Field (Decimal)		
	Cohorts.RR	Course Order	Field (Number)	Course order is important for the Build. Only courses listed as "Course Order=1" will show up on the Student Inquiry form.	
	Cohorts.RR	Cohort Start Date	Field (Date)		
	Cohorts.RR	Cohort End Date	Field (Date)		
	Cohorts.RR	Days of the Week	Field (Multi-Select)		
	Cohorts.RR	Hours per Day	Field (Decimal)		
	Cohorts.RR	Cohort Seat Capacity	Field (Number)		
	Cohorts.RR	Tuition	Field (Currency)		
	Cohorts.RR	Fees	Field (Currency)		
	Cohorts.RR	Total Tuition and Fees	Field (Formula, Currency)	Calculated automatically from Tuition and Fees; it cannot be typed in.	
	Cohorts.RR	Books	Field (Multi-Select Lookup to Books.RR)		
	Cohorts.RR	Materials	Field (Multi-Select Lookup to Materials.RR)		
	Cohorts.RR	Associated Item	Field (Lookup to AssociatedCosts.RR)	Only one item can be selected.	
	Books.RR	Books.RR	Module	Books.RR are tied to the cohort module.	Books are added when using the Cohort module and selecting books.
	Books.RR	Book Name	Field (Single Line)		
	Books.RR	ISBN	Field (Long Integer)		
	Books.RR	Book Cost	Field (Currency)		
	Books.RR	Book	Field (Multi-Select Lookup)		
	Materials.RR	Materials.RR	Module	Materials.RR are tied to the cohort module.	Materials are added when using the Cohort module and selecting materials.
	Materials.RR	Material.RR Name	Field (Single Line)		
	Materials.RR	Material Cost	Field (Currency)		
	Materials.RR	Material	Field (Multi-Select Lookup)		
	AssociatedCosts.RR	AssociatedCosts.RR	Module	AssociatedCosts.RR are tied to the cohort module. Has a limitation of 1.	
	AssociatedCosts.RR	AssociatedCost.RR Name	Field (Single Line)		
	AssociatedCosts.RR	Associated Cost	Field (Currency)		
Testing Coordinator	Testing Center.RR	Testing Center.RR	Module	Testing Center module used by the Testing Coordinator. Is tied to the student using there unique email address from the online booking. However, the applicantid is what ties to the Application.RR module.	
	Testing Center.RR	Testing Center	Field (Auto-Number)		
	Testing Center.RR	Applicant ID	Field (Lookup to Applications.RR)		
	Testing Center.RR	Booking ID	Field (Single Line, unique)		
	Testing Center.RR	Appointment Date	Field (Date/Time)		
	Testing Center.RR	Status	Field (Pick List)	Needs to be changed to Completed to record the students progress.	
	Testing Center.RR	Accuplacer Math	Field (Number)	Sensitive. Rolled up to the applicant's Application.	
	Testing Center.RR	Accuplacer Reading	Field (Number)	Sensitive. Rolled up to the applicant's Application.	
	Testing Center.RR	Accuplacer Writing	Field (Number)	Sensitive. Rolled up to the applicant's Application.	
	Testing Center.RR	Accuplacer Essay	Field (Number)	Sensitive. Rolled up to the applicant's Application.	
	Testing Center.RR	Converted Date	Field (Formula)	This record is hidden. This conversion date was needed to tie it to the Application.	
	Testing Center.RR	Coordinator Notes	Field (Multi-Line)		
Admin	Other Configuration	Admissions Coordinator.RR	Profile	Permissions are built here based on profile.	
	Other Configuration	Testing Coordinator.RR	Profile	Permissions are built here based on profile.	
	Other Configuration	Front Desk.RR	Profile	Permissions are built here based on profile.	
	Other Configuration	Registrar.RR	Profile	Permissions are built here based on profile.	
	Other Configuration	Support Coordinator.RR	Profile	Permissions are built here based on profile.	
	Other Configuration	Zoho Bookings: Testing Center booking page	Integration (Zoho Bookings)	Connector from Zoho Bookings to Zoho CRM	
	Other Configuration	Red Rock Technical College home page	Custom Home Page (Dashboard)	Selected from the home page dropdown at the top right of Home.	
	Other Configuration	Course Seat Capacity	Report	Used by the Support Coordinator to view cohort availability.	
	Other Configuration	All Inquiries.RR	Report	Used to view all students that have made an inquiry	
	Other Configuration	Zoho Booking for Testing Center	Zoho Flow	Zoho Flow is used between Zoho CRM and Zoho Bookings. Its main purpose is to help create and tie a record to a students application.
